

 <p><b>ARLINK</b> DESIGNED FOR A CHANGING WORLD</p>	 <p><b>LISTA</b> TABLE WORKSPACE</p>	<p><b>Workbenches</b>, From single workbenches to complete facility-wide installations.</p>
 <p><b>ARTOS</b> ENGINEERING COMPANY</p>	<p><b>Wire processing equipment</b>, from bench-top wire prep to Fully automated wire processing equipment. IDEAL strippers and presses as well.</p>	
 <p><b>Assembleon</b> Leaders in Electronic Manufacturing Technology</p>	<p><b>SMT Pick &amp; Place equipment</b>, from low cost mid range equipment up to the high speed and complex technology solutions.</p>	
 <p><b>Asymtek</b> A NORDSON COMPANY</p>	<p><b>Dispensing equipment</b>, for electronics, semiconductor and industrial assembly. World leaders in potting, jetting, underfill and conformal coating.</p>	
 <p><b>Atlas Copco</b></p>	<p><b>Atlas Copco Tools and Assembly Systems</b>, Complete line of Pneumatic &amp; Electric screwdrivers, Grinders, Drill, Hoists, and Air motors.</p>	
 <p><b>Conceptronic</b> A DIVISION OF CUD EQUIPMENT CORPORATION</p>	<p><b>Reflow Ovens</b>, and Customized Thermal Processing Equipment for customers in the Electronics Manufacturing Industry.</p>	
 <p><b>exerra</b></p>	<p><b>Screen Printer</b>, Semi and fully automatic screen printers. ..... <b>AVAILABLE FOR DEMO IN OUR LAB!!</b></p>	
 <p><b>JBC</b></p>	<p><b>Soldering &amp; disordering</b>, and hot air rework equipment, .....<b>BORN FOR LEAD FREE !!!</b></p>	
 <p><b>KOLVER</b> USA</p>	<p><b>Electric Screwdrivers</b>, AC wall plug in to DC controlled screwdrivers with RPM adjustment, screw counting process control, torque testers and accessories.</p>	
 <p><b>LOCTITE</b></p>	<p><b>Materials</b>, for electronics assembly, Lead Free solder, fluxes, adhesives, potting, underfill, and more. .....<b>A COMPLETE SOURCE FOR MATERIALS !!!</b></p>	
 <p><b>microtec</b> systems</p>	<p><b>Torque/Angle controlled Electric Screwdrivers</b>, For torque ranges from below 1 in/oz to 20 Nm. Full PC process control of the screw tightening process.</p>	
 <p><b>OMRON</b></p>	<p><b>AOI (Automated Optical Inspection)</b>, Inline and bench-top machines.</p>	

	<p><b>Ultrasonic spray fluxing</b>, internal or external for new or retrofitting applications, and EVS Solder Recovery system.</p>
	<p><b>Heat Guns</b>, glue guns, gas torches, and sensors.</p>
	<p><b>Torque wrenches</b>, and testers</p>
	<p><b>Cutters and pliers</b>, forged from high chromium, high carbon alloy steel.</p>
	<p><b>Testing Equipment</b></p>
	<p><b>Die bonders</b>, manual and semiautomatic assembly, rework, for microelectronic devices for the photonics, semiconductor, hybrid and printed circuit industries.</p>
	<p><b>Cleaning systems</b>, for electronic, medical, precision and industrial applications. Trek invented the liquid lock system that saves customers 50% in chemical costs.</p>
<p><b>VJ Electronix, Inc.</b></p>	<p><b>X-Ray and BGA rework</b>, High end big board to low end bench top and everything in between.  .....<b>legacy Nicolet and SRT product lines !!!</b></p>
